

Fire Hazard Status

For now you can check the Alberta Fire Ban web site to see the current status in our area (<http://www.albertafirebans.ca>) and in the case of an actual Fire Ban I will try to keep this page updated and current.

Please remember that **regardless** of what any web site (including this one), radio or TV report or even the Sundre Forestry may say, if our Board of Directors decrees a fire ban then there is a fire ban – period -. This may not be a popular decision at times but the safety and future of our park must come first. The various authorities may know what the general conditions are in the area but the Board knows what the actual conditions are within the park and must act on that knowledge for the good of everyone.

Currently **Dennis Houseman 403-638-5289** is the Fire Ban Liaison Officer.

NOTE: Fire Bans - Dennis Houseman (CURRENT BOARD MEMBER) will be posting the County Restrictions on a continual basis as well as Bergen Springs Restrictions, once posted these restrictions are in effect until such time as Dennis removes them (*regardless of the provincial or county status*). We will endeavour to keep the fire ban status updated on this web site as well.
